7:00-7:30pm – Dinner
7:30-8:30pm – Speaker and Questions

Meeting Cost: $35 with RSVP
There will be a $5 surcharge for walk-ins
$5 students (no surcharge for student walk-ins)
The FIRST 5 students to RSVP are free

Student Sponsorships welcomed! Sponsor a student for $20
RSVP by sending an email to Will Sanders: sanders@geoconinc.com
The speakers will provide an overview of the recently completed DWR Levee Evaluation Project. The DWR’s Levee Evaluation Project was the systematic evaluation of one of the largest levee systems in the United States. From 2006 through 2015, DWR initiated an unprecedented evaluation program for almost 2,000 miles of levees in California’s Central Valley. The program successfully brought individuals and local, state, and federal agencies together as a team with a common goal. In-depth investigations and analyses were performed for 415 miles of levees protecting population centers of greater than 10,000 people under the Urban Levee Evaluation project (ULE). In addition, another 1600 miles of non-urban levee were evaluated by less intrusive investigation. A review of investigational tools, analyses efforts and findings will be presented.
