The Association of Environmental and Engineering Geologists – Sacramento Section is hosting its annual Student Night meeting on Tuesday, April 26th. The meeting is a great opportunity for geology students to meet/interact with professional geologists in the environmental & engineering geology fields. Student dinners are only \$5!

Students (both undergraduate and graduate) are encouraged to display posters highlighting their thesis research for discussion/input in an informal setting. For students who are graduating soon, it is a great way to network with prospective employers.
